## DuoPur – TWO BECOME ONE!

High-performance, energy-saving, high-pressure air humidification used to mean high investment costs and extensive installations. We have reduced this outlay to a minimum. The multifunctional compact module DRAABE DuoPur now integrates the required water treatment system and high-pressure pump in just one device. This means that DRAABE is now able to make high-pressure air humidification cost-effective, even for small rooms and applications requiring low levels of humidity.

# ve money with a

## **NanoFog Evolution – SMALL BUT EFFECTIVE!**

Whether in use in small production rooms, offices, areas with low ceilings or sensitive work rooms, up to four DRAABE high-pressure [NanoFog Evolution](#) atomisers, in combination with the DRAABE DuoPur as part of the complete package, are capable of creating the optimum humidity level, almost invisible to the naked eye. Compact, quiet and attractive in its design, the [NanoFog Evolution](#) high-pressure atomiser can be inconspicuously integrated into any environment.

# total system: on

## HumSpot – EVERYTHING'S UNDER CONTROL!

The DRAABE HumSpot enables you to control and monitor your desired humidity level at all times. If the level falls short of the presetting, the [NanoFog Evolution](#) atomisers are automatically activated. A digital display provides constant information on the relative humidity and room temperature.

- ✓ Your benefits
- ✓ Economic high-pressure air hum
- ✓ Full service rental for the compl
- ✓ Reduced installation costs
- ✓ Lifelong guarantee

idification  
ete package!

## **A SMALL PRICE FOR A LIFELONG GUARANTEE!**

In order to offer you 100% operational reliability and hygiene, all maintenance and update services are already included in the monthly full service rental price.

# One price – all inclusive!

## CONTAINER EXCHANGE!

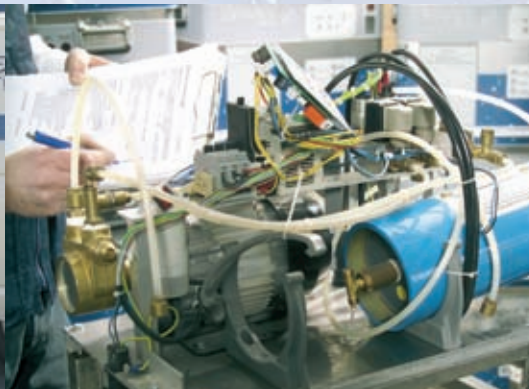

The DRAABE DuoPur is installed in a small, portable container. Every 6–8 months, you will receive a completely maintained and disinfected replacement unit. Technical improvements are automatically retrofitted during these regular maintenance intervals.

## GENERAL OVERHAUL!

DRAABE **NanoFog Evolution** pure water atomisers are thoroughly tested and replaced every two years. In this regard, all lines are also disinfected and flushed through as a preventative measure. This enables us to guarantee optimum energy consumption and maximum protection to your health, years down the line.

## Your benefits

- ✓ Total hygiene
- ✓ High operational reliability
- ✓ System always as good as new incorporating latest technology
- ✓ Unlimited guarantee
- ✓ No reserves for repairs, maintenance or net investments
- ✓ No personal outlay for cleaning

**DRAABE**  
success is in the air
